ABOUT

GCOEJ Hackathon 2025 is the flagship hackathon of Government College of Engineering, Jalgaon, designed to bring together tech enthusiasts, developers, and innovators to solve real-world problems through Artificial Intelligence. This 24-hour offline hackathon provides a collaborative platform for students to showcase their technical expertise and problem-solving skills.

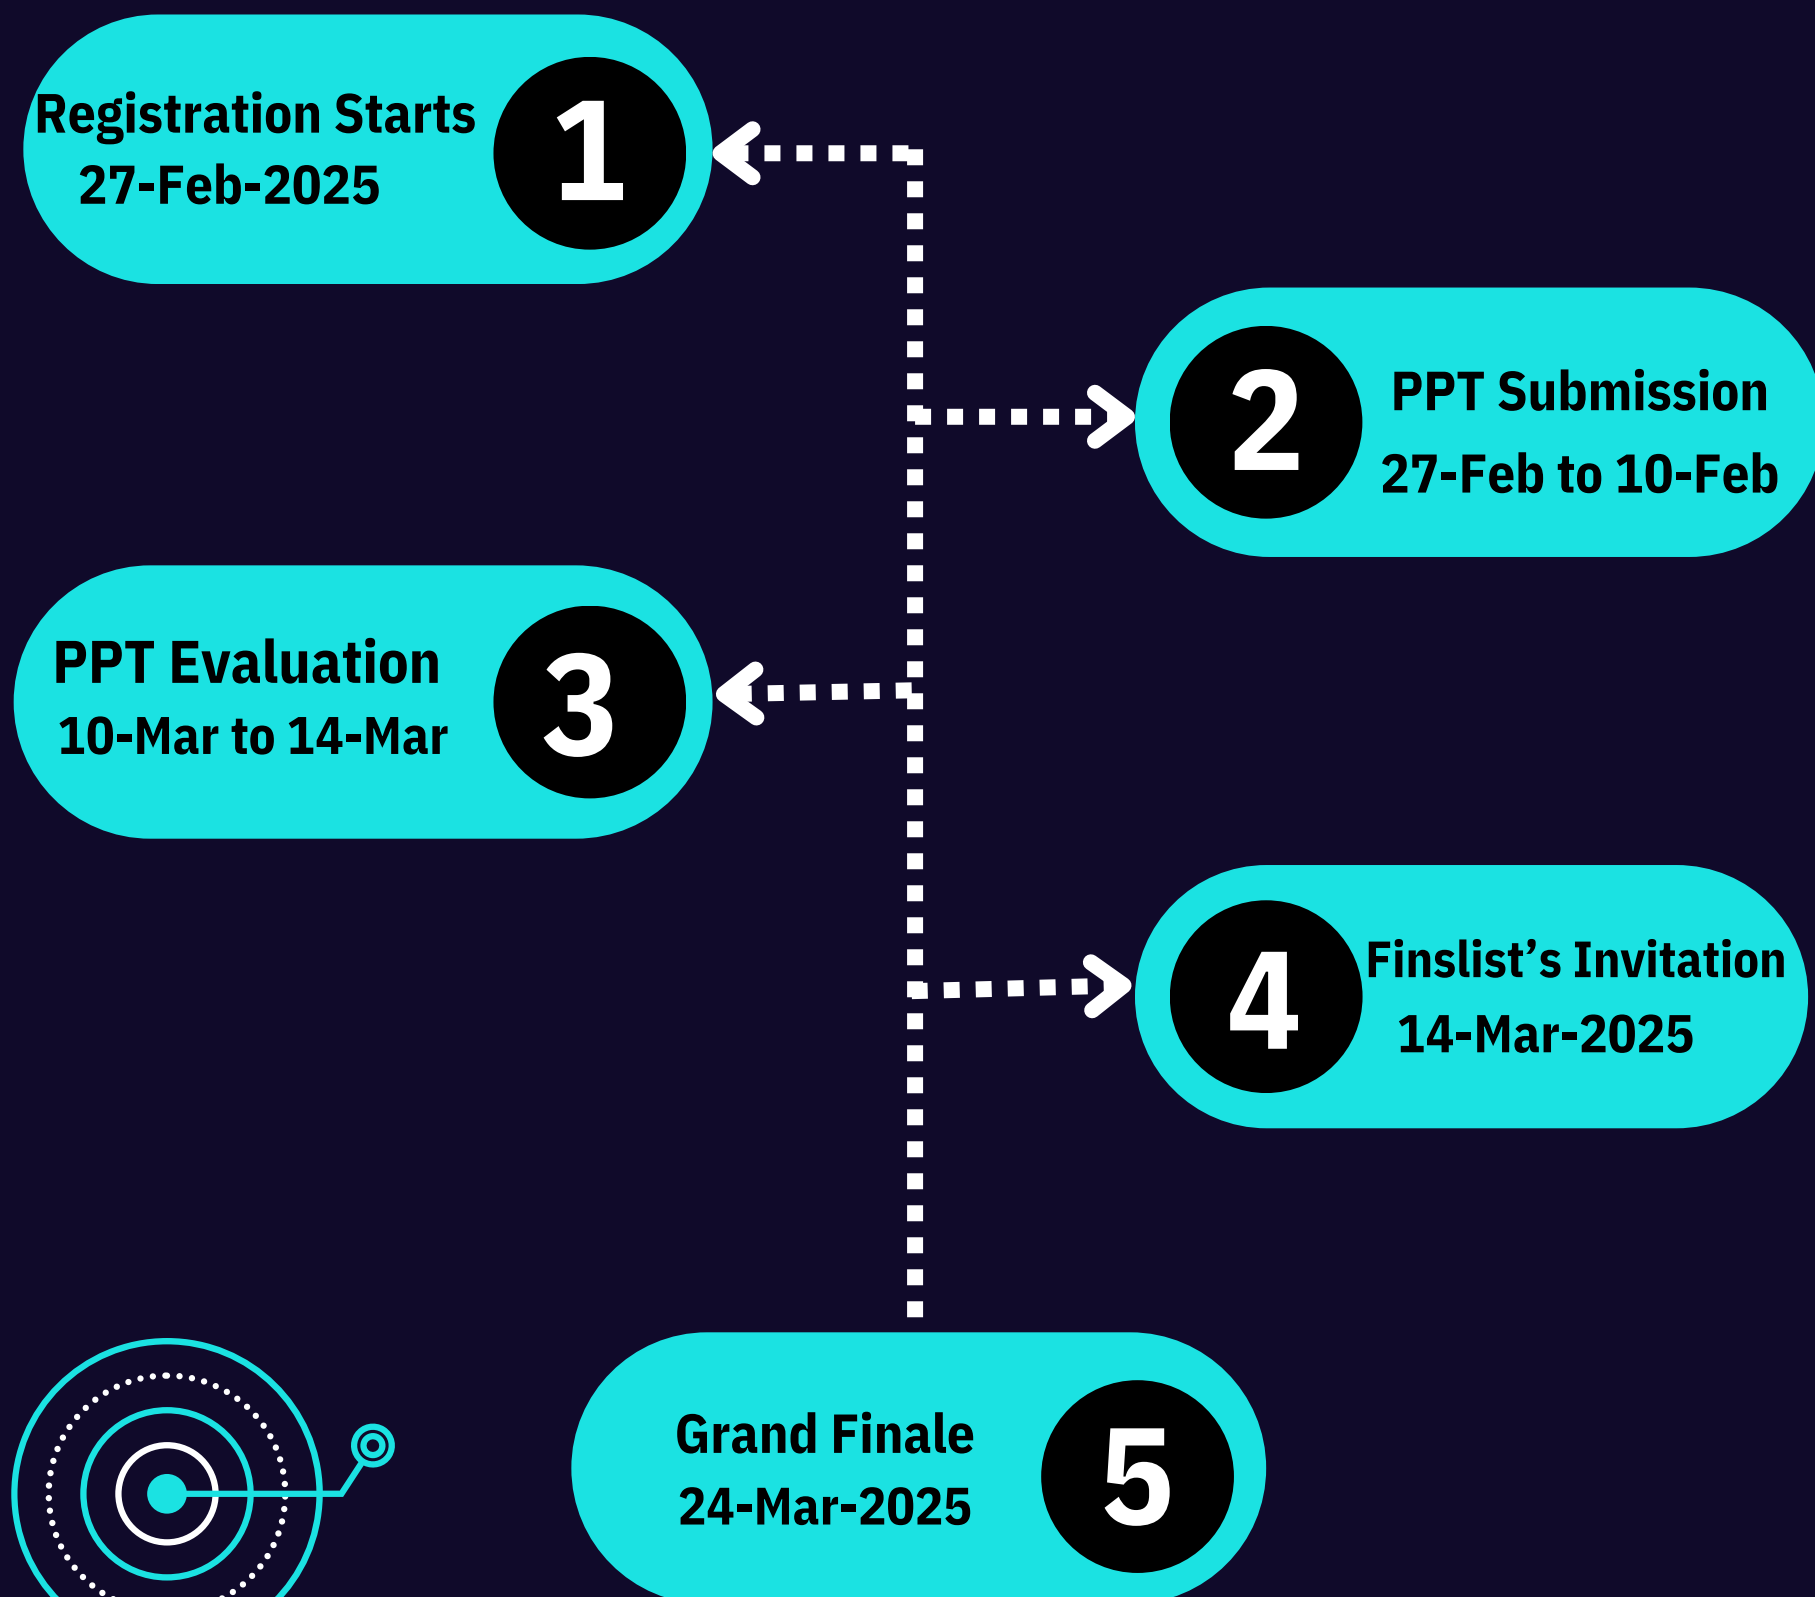

This hackathon is more than just a competition—it's a platform for learning, networking, and innovation. Participants will engage with industry mentors, gain exposure to the latest AI tools, and collaborate with like-minded peers to build cutting-edge projects. Whether you are an experienced coder or a beginner passionate about AI, this event will provide a dynamic environment to enhance your skills and bring your ideas to life.

Join us for an exciting challenge where creativity meets technology, and innovation takes center stage!

EVENT ROADMAP

EVENT HIGHLIGHTS

Participants will form teams and choose from one of the designated sub-themes under the overarching theme "**AI for a Better Tomorrow**".

These sub-themes include:

- **AI for Agriculture** : Leverage AI to optimize farming techniques, enhance crop yields, and improve supply chain efficiency in the agricultural sector.
- **AI for Social Good** : Develop AI-powered solutions to address societal issues such as poverty, disaster management, and accessibility for differently-abled individuals.
- **AI for Education** : Innovate in the educational sector using AI-driven solutions for personalized learning, automated grading, and intelligent tutoring systems.
- **AI for Healthcare** : Utilize AI for medical diagnostics, predictive healthcare analytics, and enhanced patient care to revolutionize the healthcare industry.

INSTRUCTIONS
